

MICRO STRUCTURES I

Contemporary Micrographics by Martin Oeggerli

The exhibition

The presentation of about 43 works by swiss science photographer Dr. Martin Oeggerli is conceived as touring exhibition.

Amount of pictures

43

Presentation

All works are high quality Lambda prints on photobase paper behind acryl glass installed on a stable alu-dibond medium. On the back of the photo is a u-shaped profile for wall mounting.

Image description on text boxes

There is a description for every image in German and English.

Image sizes

80 x 50 cm (1 Print)
70 x 50 cm (30 Prints)
60 x 60 cm (12 Prints)

Required space

43 linear meters of wall surface

Transport boxes

All images are delivered in a stable flight case on wheels. External dimensions: Width: 120 cm, Height: 70 cm, Depth 80 cm. Case has butterfly locks and folding handles, 7 mm case wood, ball corners, 10 mm foam padding inside, no individual compartments, steerable roller sets 100 mm with reinforcement plates, 2 wheels with brakes.

Insurance

The works need to be insured by the renting party during the exhibition and the return.

Insurance fee

30,000 €

Climatic requirements for the exhibition

No direct sunlight
Humidity below 65 %
A maximum of 30 °C room temperature

Exhibition catalogue

An exhibition catalogue is available. 92 pages, all images in color, hardcover, nominal fee 20 €.

Pay scales

9,100 € for a month
14,700 € for two month
Plus separate shipping costs for transport (back and forth).

Special conditions for research institutes and public organizations on request.

Payment terms

50 % when the contract is concluded
50 % when the exhibitions begins

Press photos

An image of the exhibition is available for press services and will be delivered as jpeg.
